To:

HR MANAGER
DBG Technology
Waterloo, Sydney NSW

Dear Hiring Manager,

I am excited to apply for the Jr Programmer position at your cutting-edge development house. With a passion for programming and a willingness to learn, I am confident that I would make a valuable contribution to your team and thrive in this role.

As a .Net Developer with some experience in C#, I am eager to expand my skills and knowledge in a dynamic and innovative environment. I am excited about the opportunity to work on a variety of systems, including CRM, Inventory, Financial, and Order Management, and to contribute to the design and development of new projects.

I am impressed by the training and development opportunities that your company offers, including in-house training on Blazor and other Telerik-based websites and apps. I am eager to learn new architectures and technologies and to develop my SQL skills to create tables, develop views, and store procedures.

As a self-motivated individual, I am confident that I can work autonomously while also collaborating effectively with your in-house business analysts and development team. With excellent English skills, both written and verbal, I am confident that I can communicate effectively and contribute to the success of your projects.

Thank you for considering my application for this exciting opportunity. I look forward to discussing my qualifications and enthusiasm further.

Yours Sincerely,

Abdallah Muath

Junior .Net Programmer

DBG

Waterloo, Sydney NSW

Developers/Programmers (Information & Communication Technology)

Full time

\$70,000 - \$100,000

Jr Programmer

A leading development company is seeking a passionate Jr programmer to assist in developing innovative projects across many different sectors.

Willing to train and develop this junior role into a complete full stack developer position complete with promotion and bonuses.

Your new company:

- We are a cutting edge development house, specializing in custom solutions, system integration and cloud development solutions.

We offer:
